Mary Lee Lane storm water pond repair project to begin

ELLCOTT CITY, MD – A Howard County construction project to repair a storm water pond on Mary Lee Lane in the vicinity of Leishear Road in Laurel is scheduled to begin on or about Monday, July 13. The project will include replacement of the pond's metal outlet riser, which has eroded, with a new, concrete outlet riser. Also, the outfall culvert pipe, which connects the pond to the spillway, located under Mary Lee Lane will be lined. Weather permitting, the project is expected to be completed by early September 2015.

Throughout the project, construction work will result in temporary obstruction and closure of the sidewalks along Mary Lee Lane. Signs will be posted to advise residents of the construction.

For questions or concerns about Capital Project D-1159, contact Lisa Brightwell, Public Works Customer Service, at 410-313-3440 or by email to publicworks@howardcountymd.gov.
